

Equipment report 30/3/25

Equipment was requested for the recent Practical Classics Restoration Show at the NEC, and I was able to deliver most of the necessary equipment required, although Carl had been to Ruskington a few weeks earlier to collect a few items. I was also present on the stand over the duration of the show, helping with build-up and break-down.

The next event is the National. For this I will be hiring a van from the 16th April to the 22nd April. The cost of van hire is £280 including VAT, and I will be adding excess protection to this, which I believe will be an additional 20% on top of the standard hire charge from memory. I will be taking the usual equipment and Club Shop items.
